PROFESSIONAL SUMMARY

GIS Analyst and Urban & Regional Planning graduate with professional experience supporting LGED urban infrastructure and master planning projects. Skilled in ArcMap, QGIS, geodatabase development, spatial analysis, thematic mapping, and geospatial data management. Experienced in transforming spatial and socio-economic datasets into evidence-based planning solutions through GIS analysis, cartographic visualization, technical reporting, and stakeholder collaboration. Passionate about applying geospatial technologies to sustainable infrastructure and development projects.

CORE COMPETENCIES

- GIS Analysis, Spatial Modelling & Data Interpretation
 - Thematic Mapping, Cartography & Visualization
 - Infrastructure Mapping & Urban Spatial Planning
 - Technical Report Writing & GIS Decision Support
- Geodatabase Design, Development & Management
 - Remote Sensing & LULC Analysis
 - Spatial Data Quality Assurance & Validation
 - Field Survey Supervision & Community Engagement

PROFESSIONAL EXPERIENCE

GIS Assistant

Aug 2025 – Jul 2026

Planning Design and Research Consultant (PDRC), Dhaka, Bangladesh

Preparation of Urban Master Plan under Improving Urban Governance & Infrastructure Program (IUGIP), LGED

- Developed GIS-supported analytical frameworks for fifteen (15) LGED Pourashava Master Plans by integrating spatial and socio-economic datasets to support evidence-based planning.
- Performed GIS-based spatial analysis of land use, infrastructure, drainage networks, and urban growth patterns using ArcGIS Pro and QGIS to support master planning decisions.
- Designed, developed, and maintained GIS geodatabases, ensuring spatial accuracy, topology consistency, metadata integrity, and standardized geospatial datasets across project deliverables.
- Produced thematic maps, infrastructure maps, land use maps, and spatial visualizations to communicate analytical findings and support planning and engineering decisions.
- Transformed GIS analysis and spatial datasets into technical reports, maps, and planning recommendations for LGED and project stakeholders.
- Collaborated with planners, engineers, and multidisciplinary teams to validate spatial outputs and refine GIS-based planning recommendations.

Upazila Town (Non-Municipal) Master Plan Preparation & Basic Infrastructure Development Project (UTMIDP), LGED

- Designed GIS-based spatial sampling frameworks for socio-economic surveys across three (3) upazilas using spatial distribution and accessibility principles.
- Analyzed spatial and socio-economic datasets to identify infrastructure service gaps and support evidence-based development planning.
- Prepared GIS-derived maps and analytical outputs for project reporting and technical decision-making.

Feasibility Study of "Development of Physical Infrastructure Facilities for Barisal & Ramu Cantonment Boards", Ministry of Defense

- Prepared GIS-based base maps and locational analysis to support feasibility assessment of infrastructure development.
- Conducted site context and accessibility analysis to evaluate spatial suitability of proposed facilities.
- Contributed to feasibility study report writing, integrating spatial analysis with planning and development narratives.

Community Engagement and Participatory Planning

Jan 2026 – Mar 2026

Planning Design and Research Consultant (PDRC), Dhaka, Bangladesh

- Supervised approximately 270 Focus Group Discussions (FGDs) across 15 municipalities under LGED-supported IUGIP master planning initiatives.
- Managed a field team of 15 enumerators, ensuring data quality, survey coordination, and timely project execution.
- Conducted quality assurance and validation of field data, integrating survey outputs with planning analyses.

- Supported stakeholder engagement, technical documentation, and final report preparation.

FIELD ACTIVITIES

Participated in field surveys, community consultations, site assessments, and spatial data verification across multiple project locations. Supported collection and validation of socio-economic, infrastructure, environmental, and land-use information. Facilitated interactions with local stakeholders and communities during planning and assessment exercises.

EDUCATION

Bachelor of Urban & Regional Planning (BURP) Jan 2020 – July 2025
Rajshahi University of Engineering & Technology (RUET), Rajshahi, Bangladesh | CGPA: 3.53 / 4.00

ACADEMIC THESIS & PUBLICATIONS

Academic Thesis: "Urban Change and Thermal Inequity: Land Surface Temp. Analysis and Heat Vulnerability of Marginalized Populations in Rajshahi"

Abstract Shortlisted for book chapters under Springer Disaster Risk Reduction Series

- Applied remote sensing, spatial statistics, and socio-demographic analysis to assess urban heat vulnerability.
- Conducted literature review and secondary data analysis to produce policy-relevant findings for climate-responsive urban planning.

Journal Publication: "Exploring the constraints of jute cultivation and analysis of market value: A case study in Bhugroil, Paba Upazila, Rajshahi"

International Journal of Scientific Agriculture, Vol. 09, No. 4, March 2024 | DOI: [10.25081/jsa.2025.v9.9504](https://doi.org/10.25081/jsa.2025.v9.9504)

- Conducted field-based data collection, stakeholder interviews, quantitative analysis, and research design.

Research Project: "Role of Bangladesh Betar in Socio-economic and Cultural Development"

Bangladesh Betar & PDRC (Apr 2026 – Jun 2026)

- Facilitated 3 FGDs and 15 Key Informant Interviews (KIIs); conducted qualitative analysis and technical reporting.

TECHNICAL SKILLS

GIS & Geospatial	ArcMap, QGIS, Google Earth Engine (GEE), Landsat 4–9 Image Processing, Geodatabase Design & Management, Spatial Database Development, Data Validation & QA
Cartography & Design	Thematic Mapping, Map Layout Design, AutoCAD, Adobe Illustrator, SketchUp, Lumion
Data & Reporting	Microsoft Excel, SPSS, Socio-economic Data Analysis, Technical Report Writing, Academic Writing, Literature Review, Policy Briefs, Technical Documentation
Survey & Field Tools	Kobo Toolbox, ArcGIS Field Maps, Survey Form Design, Mobile Data Collection, Data Validation & Quality Control, Data Cleaning & Export
Coordination & Other	MS Project, Field Survey Coordination, Stakeholder Coordination, MS PowerPoint, Canva
Languages	Bengali (Native) • English (Professional Working Proficiency)

PROFESSIONAL DEVELOPMENT & TRAINING

- **Aspire Leaders Program (2026):** Aspire Institute (Harvard-founded initiative) — Leadership development in public problem-solving, collaboration, and social impact.
- **Geospatial Data Analysis and Management - Intermediate Level (May 2026):** BIM & National Cyber Security Agency, GoB. Score: 82%. Training areas: GIS Database Development, Spatial Analysis, and Decision Support Systems.

RESEARCH INTERESTS

Land Use Change & Environmental Governance • GIS & Remote Sensing Applications • Climate Change Adaptation • Sustainable Land Management
