SUMMARY

Urban & Regional Planning graduate with professional experience in research, field data collection, community engagement, and evidence-based planning. Experienced in conducting and supervising qualitative data collection, including Focus Group Discussions (FGDs) and Key Informant Interviews (KIIs), with hands-on experience in data quality assurance, validation, qualitative analysis, and technical reporting. Skilled in coordinating field teams, engaging with stakeholders and communities, and managing socio-economic and spatial datasets using digital data collection and analysis tools.

CORE COMPETENCIES

- Qualitative Research & Data Collection
- FGD & KII Facilitation
- Field Survey Coordination
- Data Quality Assurance & Validation
- Qualitative & Socio-economic Data Analysis
- Stakeholder & Community Engagement
- Technical Reporting & Documentation
- GIS & Spatial Data Analysis

PROFESSIONAL EXPERIENCE

Junior Urban Planner- Research & Data analyst

Aug 2025 – Jul 2026

Planning Design and Research Consultant (PDRC), Dhaka, Bangladesh

Project: Preparation of Urban Master Plan under Improving Urban Governance and Infrastructure Program (IUGIP), LGED

- Supported research framework development and analytical activities for 15 Pourashava Master Plans under LGED.
- Conducted spatial and socio-economic data collection, analysis, and interpretation to assess land use dynamics, infrastructure gaps, drainage patterns, and urban growth trends.
- Developed and managed project databases, ensuring data validation, consistency, and quality in accordance with project requirements.
- Produced analytical outputs, maps, and supporting documentation to communicate research findings and planning recommendations.
- Supported preparation of technical reports and project documentation, translating analytical findings into evidence-based recommendations for LGED and project stakeholders.
- Collaborated with planners, engineers, local government representatives, and other stakeholders during technical reviews, field assessments, and planning activities.

Assistant GIS Analyst-Project Based

Project: Upazila Town (Non-Municipal) Master Plan Preparation and Basic Infrastructure Development Project (UTMIDP), LGED

- Designed GIS-based spatial sampling frameworks for socio-economic surveys across three upazilas using spatial distribution and accessibility principles for three (3) upazilas.
- Analyzed spatial and socio-economic datasets to identify infrastructure service gaps and support evidence-based development planning.

- Prepared GIS-derived maps and analytical outputs for project reporting and technical decision-making.

Project: *Feasibility Study of “Development of Physical Infrastructure Facilities for the Newly Established Barisal and Ramu Cantonment Boards”, Ministry of Defense.*

- Prepared GIS-based base maps and locational analysis to support feasibility assessment of infrastructure development.
- Conducted site context and accessibility analysis to evaluate spatial suitability of proposed facilities.
- Contributed to feasibility study report writing, integrating spatial analysis with planning and development narratives.

Community Engagement and Participatory Planning

- Supervised and coordinated approximately 270 Focus Group Discussions (FGDs) across 15 municipalities under LGED-supported master planning initiatives.
- Managed a field team of 15 enumerators, coordinating community consultations, field activities, and data collection.
- Coordinated engagement with local government representatives, community members, and sector stakeholders during field-level consultations.
- Supported Monitoring, Evaluation, Accountability and Learning (MEAL) activities through the finalization and submission of project reports.
- Conducted quality assurance and validation of field consultation data and prepared analytical reports and documentation to support planning recommendations.
- Managed field operations and coordinated an allocated project budget of approximately BDT 20,00,000.

Research Assistant – Project-Based

Project: “ *Role of Bangladesh Betar in the Socio-economic and Cultural Development of the People of the Northern Region*”, *Bangladesh Betar & Planning Design & Research Consultant (PDRC)*

- Facilitated 3 Focus Group Discussions (FGDs) and conducted 15 Key Informant Interviews (KIIs) for qualitative data collection.
- Conducted qualitative analysis of field findings and synthesized key themes and insights from FGDs and KIIs.
- Prepared technical research reports and documentation, translating qualitative findings into evidence-based conclusions and recommendations.

PROFESSIONAL DEVELOPMENT

- Aspire Leaders Program (Aspire Institute, Harvard-founded initiative) - 2026 - Participated in leadership development focused on public problem-solving, collaboration, and social impact.
- “Geospatial Data Analysis and Management - Intermediate Level” - Organized by BIM, National Cyber Security Agency, GoB. Score: 82%; May 2026. Training areas: GIS Database Development, Spatial Analysis, and Decision Support Systems.

RESEARCH EXPERIENCE & PUBLICATIONS

Publication

1. “Exploring the constraints of jute cultivation and analysis of market value: A case study in Bhugroil, Paba Upazila, Rajshahi”. *International Journal of Scientific Agriculture*, Vol. 09, No. 4. March 2024; DOI: <https://doi.org/10.25081/jsa.2025.v9.9504>
 - Conducted field-based data collection, stakeholder interviews, and quantitative analysis.
 - Contributed to research design, data analysis, and report writing.
 - Performed market chain analysis and peoples Participatory approach.
 - Performed literature review and methodology designing

Research Project

2. "Role of Bangladesh Betar in Socio-economic and Cultural Development (April 2026 – June 2026)":
Bangladesh Betar & Planning Design & Research Consultant (PDRC)

Academic Thesis

"Urban Change and Thermal Inequity: Land Surface Temp. Analysis and Heat Vulnerability of Marginalized Populations in Rajshahi"

- Applied remote sensing, spatial statistics, and socio-demographic analysis to assess urban heat vulnerability.
- Conducted literature review and secondary data analysis to support research frameworks and planning recommendations & Produced policy-relevant findings to support climate-responsive urban planning.

RESEARCH INTERESTS

- Socio-economic & Qualitative Research
- Community Participation & Stakeholder Engagement
- Gender Equality, Social Inclusion & Vulnerability
- Evidence-based Development & Policy Planning

SKILLS

Category	Skills
Research & Data Collection	Qualitative Research, FGD & KII Data Collection, Survey Form Design, Field Data Collection, Literature Review
Data Analysis & Quality Assurance	Qualitative Analysis, Socio-economic Data Analysis, Data Validation, Data Cleaning, Quality Control, Data Documentation
Digital Survey & Data Tools	KoboToolbox, ArcGIS Field Maps, Microsoft Excel, SPSS
Research & Technical Reporting	Technical Report Writing, Research Documentation, Academic Writing, Policy Briefs, Project Proposals, Data Presentation
GIS & Spatial Analysis	ArcGIS Pro, ArcMap, QGIS, Google Earth Engine, Spatial Analysis, Thematic Mapping
Project & Field Coordination	Enumerator Supervision, Field Survey Coordination, Stakeholder Coordination, Community Consultation, MS Project

EDUCATION

Bachelor of Urban & Regional Planning CGPA: 3.53/4.00
Rajshahi University of Engineering & Technology (RUET), Rajshahi
Bangladesh

Jan 2020 – July 2025
