PROFESSIONAL SUMMARY

An Urban Planner with hands-on experience in GIS, remote sensing, and spatial modelling for sustainable and climate-adaptive urban development. Skilled in using ArcGIS, QGIS, and Google Earth Engine for hydrological analysis, environmental monitoring climate and urban resilience studies. Strong teamwork and communication abilities through professional engagements at PDRC and academic projects at RUET.

PROFESSIONAL EXPERIENCE

Junior Urban Planner

Aug 2025– Present

Planning Design and Research Consultant (PDRC)

Dhaka, Bangladesh

Project: *Preparation of Urban Master Plan under Improving Urban Governance and Infrastructure Program (IUGIP), Package No. IUGIP/MP/02/2023 (LGED)*

1. Performed comprehensive GIS analysis for five (5) Pourashava Master Plans, focusing on land use, road networks, and drainage systems to support evidence-based planning.
2. Developed and managed the project's geodatabase by digitizing urban and environmental features, ensuring spatial accuracy and data consistency.
3. Conducted advanced spatial analyses using ArcGIS and QGIS to assess urban growth patterns, infrastructure gaps, and model future development scenarios.
4. Produced high-quality thematic maps and data visualizations for project stakeholders and LGED engineers towards facilitate planning decisions.
5. Contributed critical geospatial insights that informed infrastructure improvement and sustainable land management strategies.
6. Contributed to technical report preparation, spatial data documentation, and project deliverable management, ensuring alignment between geospatial outputs and planning objectives.
7. Supported sustainable urban development strategies by integrating GIS insights into land management, zoning, and infrastructure investment priorities.

EDUCATION

Rajshahi University of Engineering & Technology (RUET)

Rajshahi, Bangladesh

Bachelor in Urban & Regional Planning

Jan 2020-July 2025

Dept. of Urban & Regional Planning (URP)

Cumulative GPA: 3.53/4.0;

RESEARCH PUBLICATIONS

1. **Exploring the constraints of jute cultivation and analysis of market value: A case study in Bhugroil, Paba Upazilla, Rajshahi.** International Journal of Scientific Agriculture, Vol. 09, No. 4. March 2024 <https://doi.org/10.25081/jsa.2025.v9.9504>
2. **Unleashing the Potential: A Comprehensive Master Plan for the Padma River Port, Rajshahi.** (Publication process Ongoing).

ACADEMIC THESIS

1. **“Urban Change and Thermal Inequity: LST Analysis and Heat Vulnerability of Marginalized Populations in Rajshahi”** (Abstract Shortlisted for book chapters under the book series Disaster Risk Reduction: Methods, Approaches and Practices, in [Springer](https://www.springer.com))

SKILLS

Category	Details
GIS (Geographic Information System)	ArcGIS/ArcGIS Pro/QGIS
Software	AutoCAD, Sketch Up, Lumion, Adobe Illustrator
Data Analysis	SPSS, MS Excel & Statistical analysis, Kobo Data Tool-Box
Writing	Thesis Report, TOR, Project Proposal, Policy Brief.
Data Collection	Questionnaire Method, Key Informant Interview (KII), Online Survey.
Project Management	MS Project, Field Survey Coordination.
Presentation	MS PowerPoint, Canva pro.
Distinctive Skill	Cross-platform working ability with ArcGIS, Remote Sensing Tools.
Remote Sensing	Google Earth Engine (GEE), Landsat 4-9 Image Processing.
Language	Fluent in English & Bangla.

PROJECTS/WORKS

1. Regional Planning Studio

- FORMAL REGION DELINEATION ON BASIS OF AGRICULTURAL EMPLOYMENT, BANGLADESH.
-To regionalize all 64 districts of Bangladesh according to the number of employments based on agriculture and to assess the effects on rural development.
- FUNCTINAL REGIONAL DELINEATION ON BASIS OF AGRICULTURAL EMPLOYMENT, BANGLADESH.
-Aims to map agricultural employment density and examine regional dependencies using Geographic Information System (GIS) tools at coastal area.

2. Rural Planning Studio

- EXPLORING LAND USE EVOLUTION AND DRIVING MECHANISMS FOR RURAL DEVELOPMENT: A CASE STUDY TO DETERMINE FUTURE LAND USE IN A RURAL AREA.
- To evaluate the current state of land use in the rural area and assess the potential impacts of ongoing land use changes on rural development.
-To identify the driving mechanisms behind land use changes in the rural area
